

JOB PROFILE

Position Title	Product Designer UX / UI
Department	Product
Immediate Supervisor	Head of Product
Basis of employment	3 month contract (4-5 days/week)

We are looking for a mid-level UX/UI designer to join our team and redefine the product experience as part of our digital transformation initiative. You will be part of the Product team, working closely with the Product Managers and the Engineering team championing customer-centric user experience.

An excellent opportunity to create a massive impact!

What your responsibilities look like:

- Create wireframes, prototypes, user-journeys, hi-fidelity designs using various design tools
- Craft customer-friendly, engaging and functional digital experiences
- Collaborate with product managers, technical teams and stakeholders to help drive the best end user experience
- Conduct user-research with internal and external users , prototype, validate, define and deliver using design-led thinking
- Create design concepts to explore product opportunities and solve problems
- Plan and conduct usability studies and document recommendations for improvements

What you'll need to succeed:

- Minimum 2-3 years hands-on experience as a UI/UX designer
- Proactive, action-oriented with an ability to work independently as well as in cross-functional teams
- Experience working with wireframing/prototyping tools and building customer-centric experiences
- Experience in customer journey maps, empathy maps
- Comfortable working in Agile Delivery model and participating in all sprint ceremonies
